

## A brief review of 2021 and an optimistic view of 2022

December reminds us of all the interesting projects and customers this year. We would now like to send a special "thank you".

We wish you happy holidays, health, health and health, lots of fresh air, lively family conversations, moments of silence and ...

May the New Year be full of joy and inspiration and without corona! And this really in 2022!

We look back on 2021 - our highlights!

For the exhibition "Akhmim Egypt's Forgotten City" in the James-Simon-Galerie of the Staatliche Museen zu Berlin we produced a film with the title „ACHMIM - BERLIN | AKHMIM – BERLIN“ in two versions (film for the exhibition, version for streaming) or scan:

How is the ancient Egyptian town of Akhmim connected to modern day Berlin? The documentary film „Berlin - Akhmim“ investigates the multiple relationships between the two places, the people, their histories, the artifacts. The film is a plea for a new form of globalization within our minds.

playing time: 16 minutes/25 minutes /trailer

language: German/English subtitles

Our film „ Archaeological Research and Conservation in Musawwarat es-Sufra (Sudan)“ was shown at the first joint Berlin Sudan Day of the Sudan Archaeological Society of Berlin (SAG) eV, the Humboldt Universität zu Berlin, the Ägyptisches Museum und Papyrussammlung der Staatlichen Museen zu Berlin (ÄMP) and the Deutsches Archäologisches Institut (DAI) in June 2021.

Musawwarat es-Sufra is one of the most fascinating and unique archaeological sites of Sudan. It was a large ceremonial centre of the ancient Kingdom of Kush, located away from the Nile in a picturesque valley surrounded by low sandstone mountains. Many of its monumental architectural structures are still well-preserved, among them the earliest known temple for the indigenous lion-headed god Apedemak or the labyrinthine building complex of the Great Enclosure with its numerous temples, ramps, corridors and courtyards.

Since 1960 Humboldt-Universität zu Berlin (Germany) has been running a long-term research and conservation project at Musawwarat in cooperation with the National Corporation for Antiquities and Museums (NCAM) and with the help of the local community of pastoralists. This film follows the archaeological team during their research and preservation work at this Sudanese and UNESCO World Heritage site in early 2020 and begins to tell the (hi)stories of Musawwarat.

playing time: 25 minutes

language: German, English, Arabic

Musawwarat Deutsch

Musawwarat English

Musawwarat Arabisch

### „new frames for MUNCH“

More than 500 of Munch`s artworks were reframed before moving to the new MUNCH Museum in Oslo. The film follows this process.

playing time: 30 minutes

language: English

frames

## Our projects in 2022

In the coming year we would like to produce the film project documentation about the “ERC Project **ELEPHANTINE**: Localizing 4000 Years of Cultural History. Texts and Scripts from Elephantine Island in Egypt“.

We hope to continue filming in **Sudan** and finish one or two movies.

And then we're going to shoot about a new exciting topic ... But shh! We're a bit superstitious here and don't want to reveal too much!
